

The most dangerous part of COVID-19 is when you don't know you have it. That is why you wear a mask at all times.

Nobody wants to be the guy who gives his family COVID-19.

That guy refused to wear a mask and now has to visit his family member in the hospital. **DON'T BE THAT GUY!**

If you don't wear a mask when you're around others, you're exposing your co-workers and their families to COVID-19.

IT'S ON YOU TO KEEP OTHERS SAFE.

WE CAN STOP
COVID-19 TOGETHER

Stay home if you're sick.
Wear a mask.
Wash your hands.
Social distance.

Lo más peligroso del
COVID-19 es **cuando
no sabes que lo tienes.**
Por eso siempre debes
usar la máscara.

Nadie quiere ser esa persona que contagia a su familia
de COVID-19.

Esa persona que no se quiso poner la máscara y ahora debe
visitar a sus familiares en el hospital. **¡NO SEAS ESA PERSONA!**

Si no te pones la máscara cuando estás con otros, estás
exponiendo a tus compañeros y sus familias al COVID-19.

DEPENDE DE TI MANTENER A LOS OTROS A SALVO.

JUNTOS PODEMOS
DETENER EL COVID-19

Quédate en casa si estás enfermo.
Ponte la máscara.
Lávate las manos.
Practica el distanciamiento social.
